

Sounds of Life Stream Wirelessly

Improve your listening experience with our optional wireless accessories that free you from uncomfortable adapters around your neck and eliminate annoying delays and echoes. The **Remote Control** enables you to adjust the volume, change programs, or switch between audio from your TV, radio or PC if you have a **TV Streamer**.

With the **Phone Clip**, you can connect to a Bluetooth® enabled mobile phone, answer and end calls or change the volume at the touch of a button. The **Clip-on Microphone** allows you to stream speech directly to your ears – perfect for difficult listening conditions.

ReSound Forza™ - Life without limits

ReSound Forza hearing instruments bring back the natural sound experience – rich and clear, whatever the source, whatever the direction. ReSound products offer an advanced feedback management system which eliminates whistling when you hug your loved ones or talk on the phone. All this, from a range of small and powerful devices.

Directionality Options

Participate in conversations and still be aware of surrounding sounds, even in a noisy restaurant.

Whistle Protection

Premium technology that greatly reduces feedback, so you can hug your loved ones or talk on the phone.

Sound Processing

Delivers such a natural sounding listening experience, you may forget you are wearing hearing devices.

Automatic Gain Adjustment

Individualized volume setting for any environmental listening situation.

Noise Regulator

Tracks and reduces disturbing sounds, even in the noisiest environments.

Wind Guard

Detects the wind direction and adjusts the volume level to suit your active outdoor life.

Built to last

ReSound Forza hearing devices let you enjoy your active lifestyle to the fullest. There's no need to compromise, no need to hold back, because Forza's robust construction and protective nanotech coating gives you the durability you need to match the life you lead.

Nanotech coating

Nanotech coating protects your hearing devices from sweat, moisture and dust. Fluid and water roll right off the surface so you don't have to worry when you're exercising, gardening or walking in the rain.

Nanotech coating
